

2198 High Pressure Calibrator

- Tradinco pressure controller with very high control resolution
- Maximum control pressure 350 bar (higher pressures on request)
- Special low torque Tradinco High Pressure Regulator
- Precision Needle valves for on/off fine control and vent
- All internal pneumatic tubing in stainless steel
- Quick connect test connection with automatic shut off valve
- MA scaling to any pressure unit or percentage
- Dual pressure sensor capability for increased rangeability
