

Introduction to Tradinco

Since its foundation in 1963, Tradinco Instruments designs, manufactures, distributes, repairs and calibrates high quality test and calibration equipment for the industry and laboratoria. Suitable for both bench-top and field calibration applications, Tradinco's range of pressure, electronic and temperature calibrators also includes AutoCal®. This latest development in software calibration systems has helped make Tradinco internationally recognized as The Calibration Company.

Located at Berkel en Rodenrijs in The Netherlands, Tradinco is close to the airports of Amsterdam and Rotterdam and the port of Rotterdam.

Tradinco's Calibration Laboratory has been accredited by the Dutch Accreditation Council RvA . (ISO/IEC 17025). In 1995 Tradinco gained its ISO 9001 certification by Det Norske Veritas, which covers all aspects of company operations. Each member of the Tradinco team is committed to the pursuit of quality and customer satisfaction for both products and service.
